	8	\$10.00		8	\$10.00			Regular entry payback is determined as follows: Total entry per class is added up. \$5.00 per entry is deducted and placed in points fund. If a class is a 100% payback class the balance is divided by the following formula: 9 or less entries=50% first place, 30% second place, 20% third place.		
	9	\$10.00		9	\$10.00			If the class has 10 or more entries the following formula is used: 45% first place,25% second place 15% third place, 10% fourth place, and 5% fifth place.		
	10	\$10.00		10	\$10.00			70% payback classes are determined in the same way, with the provision that 305 of the total entry fee is subtracted and is placed in the general fund. Then points fund is subtracted, and the balance is paid out using the same mathematical formulas as shown above.
